

# Connecting to Wifi in the OCDSB

[Translate this Document](#)

## Staff and Student WiFi Access

The OCDSB network is the secure, full-featured network, and provides access to more services. It is accessed by using your username (OCDSB Email Address) and network (Board) password.

The OCDSB and OCDSB\_GUEST wireless networks will NOT permit access to District services such as P: drives, S: drives and printers from non-District-owned devices.

## Guest Wifi Access

For Guest Wifi access, please see [Wireless Network Access for Guests](#)

[Connecting Android Devices](#)

[Connecting a Chromebook to Wi-fi on the OCDSB network](#)

[Issues Connecting?](#)

[STEP 1: Try your password again](#)

[STEP 2: Forget the network](#)

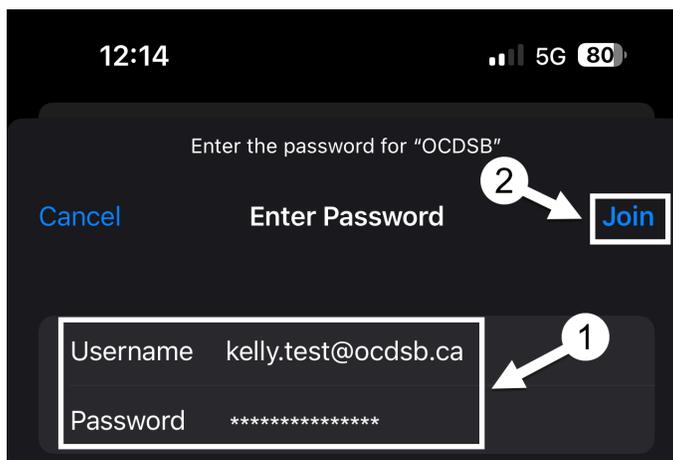

## Connecting iOS Devices

1. Tap on **Settings** > **Wi-Fi** then Select **OCDSB**.

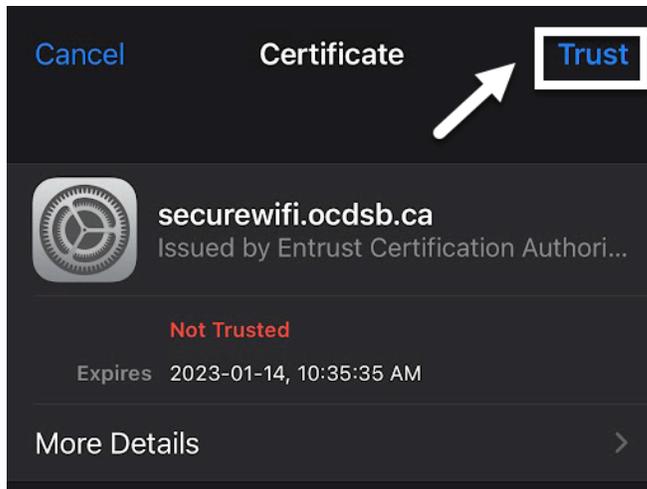

2. Enter your **OCDSB email address** and **password (#1)**.
3. Then click **Join (#2)**

4. Tap on **Trust** to trust the certificate.

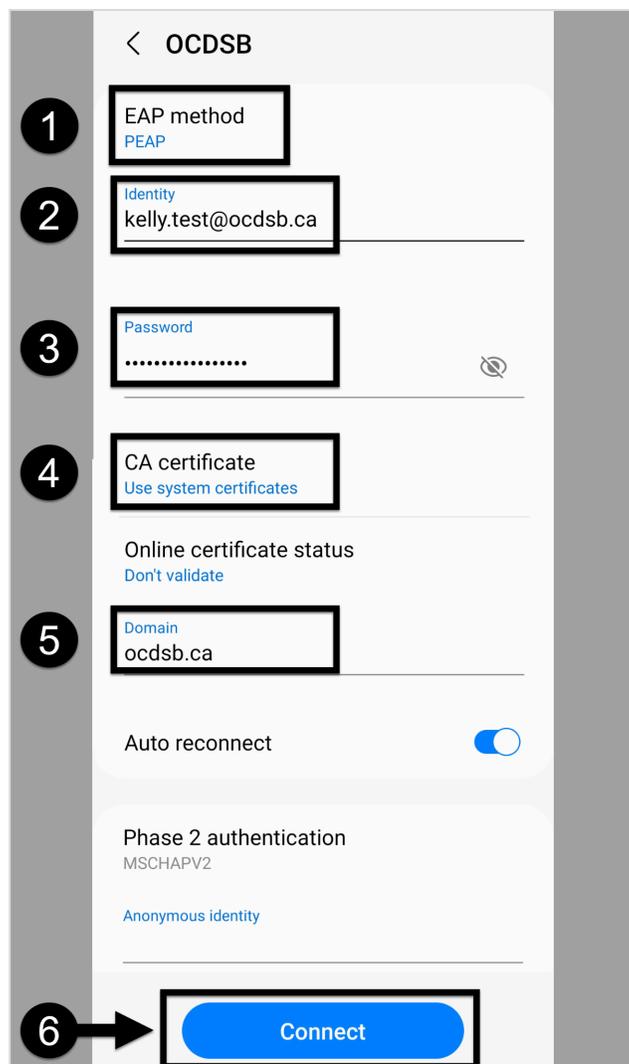

5. You should now be connected.

## Connecting Android Devices

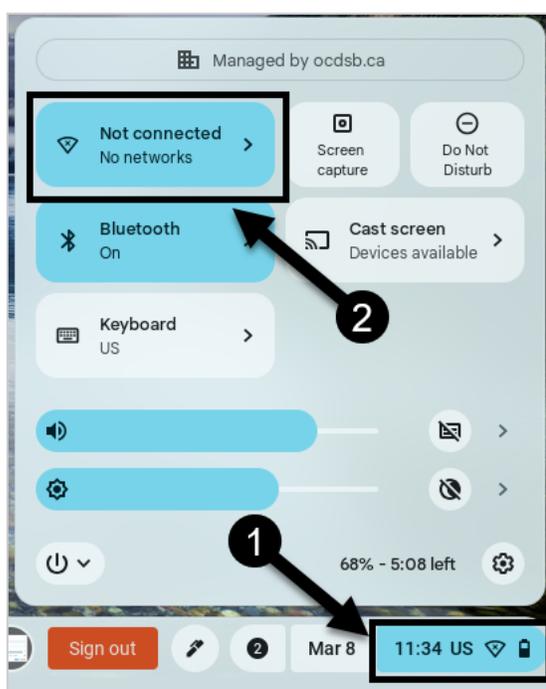

1. Tap **Settings** > **Connections** > **Wi-Fi**
2. Select **OCDSB**
3. Leave **PEAP** for the EAP method (#1).  
(This is the Default Setting)
4. Type your **OCDSB Email Address (#2)** (ex. kelly.test@ocdsb.ca)
5. Type your **OCDSB Password (#3)**
6. Tap on **CA certificate**, and choose **Use system certificates (#4)**
7. **Online certificate status** should default to **“Don’t Validate”** (if it is something else, you can click on it and change it)
8. Under **Domain**, type **ocdsb.ca (#5)**
9. Leave **MSCHAPV2** for Phase-2 Authentication. (This is the Default Setting)
10. Tap on **Connect (#6)**

## Connecting a Chromebook to Wi-fi on the OCDSB network

1. From your Chromebook's home screen, click the **Status Button** in the bottom right of the screen (#1).
2. Click the **network option** (#2).
3. In the Network window, select **OCDSB** from the list of networks (#3).

4. In the pop up, enter the following technical specifications:

**SSID** = OCDSB

**Security** = EAP

**EAP Method** = PEAP

**EAP Phase 2 authentication** = MSChapv2

**Server CA Certificate** = Do not check

**Subject Match** = Leave Blank

**Subject alternative name match** = Leave Blank

**Domain suffix Match** = OCDSB.ca

**Identity** = Board Email Address (e.g. kelly.test@ocdsb.ca)

**Password** = Same as your email password

**Anonymous identity** = Leave Blank

5. Click **Connect**.

## Issues Connecting?

### STEP 1: Try your password again

If you receive the error "Unable to join the network OCDSB", it may be because the password was entered incorrectly. Try again.

### STEP 2: Forget the network

If re-entering your password does not work, "forget" the network on your device and try connecting to the wifi again.

#### To forget the network on an iOS device:

1. Go to **Settings** > **Wi-Fi**.
2. Tap the info button next to the OCDSB network name. 
3. Tap **Forget This Network**, then tap **Forget** to confirm.

#### To forget the network on an Android device:

1. Open **Settings** on your device.
2. Tap on the **WiFi icon** to access WiFi network options.
3. Tap and hold the WiFi network you want to delete (i.e. the OCDSB network).
4. Then select **Forget Network** from the menu that appears.

## Need Assistance?

If you need assistance, training or service, please contact our **Client Service Centre** by email at [csc@ocdsb.ca](mailto:csc@ocdsb.ca) or by phone at 613-596-8273, or place a call ticket using the [IT Support Portal](#).
